FISHER CASE WITH JUDGE

Argument in Suit Against Passenger and Power Company Is Concluded.

BROUGHTON IN PETERSBURG

The Noted Evangelist Arrives and Begins a Meeting—Murder Case—Personal.

(Special to The Times-Dispatch.)

PETERSBURG, VA., May 24.—Argument was concluded this afternoon in the case of Fisher, Davis and Rogers against the Virginia Passenger and Power Company and the Southside Railway and Development Company, and Judge Mullen has taken the matter under advisement, and will render his decision early next week. The judge would like to dispose of the case this week, but will be occupied in court to-morrow and other engagements will occupy him till the latter part of the week, so that it may be Friday or Saturday before he can give the case the attention he desires to give it. Mr. Alexander Hamilton opened the argument this morning, and after the argument by Mr. Epps Hinton, of Richmond, this afternoon, the case was submitted.

DR. BROUGHTON PREACHES.

Dr. L. G. Broughton, of Atlanta, Ga., reached Petersburg this morning and preached this afternoon and to-night at West End Baptist Church, where he will hold a revival. Dr. Broughton has preached in Petersburg before, and at every service the house was always filled. Large crowds are going to hear him again, and it is likely that the auditorium of the West End Baptist Church, though of ample capacity for the large congregation, will prove insufficient for the throngs that will go to hear Dr. Broughton. The pastor of the church has made excellent arrangements for the meetings, and a special choir has been trained to conduct the singing.

The forty hours' devotion services were brought to a close at St. Joseph's Catholic Church this morning by celebration of solemn high mass, followed by a procession of children, which was participated in by the priests and altar boys.

National Decoration Day will be observed in Petersburg this morning by the Grand Army of the Republic veterans and their friends. The ceremonies will be held at the National Cemetery, in Dinwiddie county, near this city, and among the speakers will be Rev. S. C. Hatcher, Rev. George W. Barker, General H. B. Bolling and Mr. Simon Seward.

THOMAS SENT ON.

John Thomas, the negro whom Floyd Nicksa, negro, charged with the murder of R. L. Woolridge, near City Point, recently has been sent on for trial in the Circuit Court of Prince George county. Nicksa was recently tried and convicted of a portion of the murder, but said nothing at the trial that implicated anyone else. Later, he declared that Thomas was the man who committed the murder, and on his testimony Thomas was arrested. The negro told the officers a straight tale, and they were inclined to believe that he was telling the truth, and that Nicksa had made false charges. The conviction of Nicksa has been revoked and the case will have a full hearing in the Circuit Court.

Maria Dunn, an insane colored woman, living near Prince George Courthouse, attempted to kill her husband by throwing boiling water on him. The woman then fled to the swamp, and is being searched for by a party of neighbors. The man's injuries are serious.

PERSONALS AND BRIEFS.

The condition of Mr. John W. Bradbury, who recently suffered a stroke of paralysis, and Mr. W. T. Parham, who is ill with pneumonia, is reported to be slightly improved.

Mrs. E. C. Kent is quite ill at her home, in this city.

The public schools in Petersburg will close next Tuesday.

The ladies will give a subscription card party at the Country Club Friday afternoon, and the club will give a german to its members that evening.

Miss Jean Trigg, of Abingdon, is the guest of the Misses Zimmer, in Petersburg.

Chronic Kidney Disease

IT IS WORRY THAT KILLS—Many imagine that liquor is the cause of most of the kidney troubles. The results of liquor are more often seen in the hardening of the liver, although many cases of kidney disease follow. But by far the most cases of serious kidney impairment come from these two causes, viz: mental worry and colds that settle in the kidneys.

The kidneys are not sensitive to pain, but mental worry has such an immediate effect that it can be measured. For instance, in Diabetes the sugar in the urine may cause it to show a specific gravity of, say 1000. Take the patient to his business and plunge him into the worries of a busy day, and the specific gravity will jump to 1040 and 1050 in six to eight hours.

The hustle and worry of our strenuous American life has increased kidney diseases so seriously that the last United States census makes special mention, and Dr. Loomis, of the famous Bellevue Hospital, believes that 90 per cent of men and women over 40 in this country have Bright's Disease (Kidney trouble) in some form.

And the great trouble in kidney disease brought on by worry is that it is nearly invariably chronic, because it is the nature of such patients to worry more or less all the time. Result—the disease becomes fastidious and was considered incurable up to the discovery of Fulton's Compound for Bright's Disease. Under it nearly 90 per cent of all cases now recover.

If you have any kidney trouble whatever, start right at first with the only thing that will cure it. If it is serious, we are the agents. Owens and Minor Drug Co., Richmond, Va.
